AAA Cast Stone Products
1470 12th Street East
Palmetto, FL 34221

Attn: Larry Haverman, President

Dear Larry;

I would be remiss if I didn't tell you how much I appreciate the incredible job your company did for us at our property at Cape Leyte Drive on Siesta Key. Every time I drive into the driveway, I have to stop and admire the beautiful stonework. Boy, am I glad we used the real thing instead of that cheap foam stuff! It is so beautiful! The stonework just embellishes the house so well. It is the finishing touch. As my wife says, "it just adds so much class".

And, as great as the stonework looks, what really sets you apart from all the other contractors we dealt with in renovating our home is the "can do" attitude of your people. When the architect erred in the size of our front columns your people just made a quick adjustment and corrected for it. Your installers were there when you said they would be and they worked with a great deal of skill. They were so concerned about doing a quality job and making sure everything was just right. Of all the subcontractors we had on our job, AAA Cast Stone was the only one that did what was promised, when it was promised for the price promised. I can't begin to tell how refreshing that is.

It is so rare for us as customers to deal with such a competent, professional group of people such as yourselves. Your crews worked hard and didn't even leave a mess like everyone else did. They cleaned up after they finished.

Larry, needless to say my wife and I are very pleased and happy customers. If ever you need a recommendation we would be delighted to provide it. Thank you for all your attention to detail and making our home such a show place.

With great appreciation,

Peter W Gravelle
